Stockholm, Sweden / markohautala@live.se / 072-291-07-50

Executive Summary

My name is Marko, and I am a passionate and enthusiastic Full Stack Developer with a love for frontend development. I code everyday and I have experience and strong knowledge in JavaScript, Python, React, Nextjs, Django, Bootstrap, databases, HTML/CSS, and working with APIs. I also have skills in AI/ML, NodeJS, SQL, Flask and with AWS. I strive to create smooth UX/user-friendly interfaces with modern principles and robust, clean backends. My attention to detail, strong analytical abilities, and quick problem-solving skills are among my strengths.

I am looking for chances to use my skills in a collaborative team. I am always eager to upskill and get better. With over 9 years of overall experience working well with teams as well as independently, communicating effectively and for the last three years, being a team leader, I have outstanding references that show my excellent service, strong results, and positive impact on my colleagues.

Education

Jun 2023 - Aug 2024	Code Institute	<i>Dublin, Ireland (Remote Based Learning)</i>

Portfolio Projects

- Nextjs OpenAI API Chat-app** - AI/Chat-GPT like app for coders that also can take regular non-code user prompts - can display code using React syntax-highlighter. **Tech used:** Nextjs, AI, TypeScript, Tailwind, JavaScript, Vercel, API:s, OpenAI. Link: <https://github.com/markohautala/nextjs-tailwind-ai-chat/tree/master>
- Django Auth and CRUD app** - Application with full CRUD-functionality and user Authentication. **Tech used:** Python / Django framework, HTML, CSS, JavaScript, SQL-database, Heroku. Link: <https://github.com/markohautala/django-auth-crud-app>

3. **React to-do app with background animation** - To-do application built and based on React. **Tech used:** React, JavaScript, Vite, Three.js, Heroku, HTML, CSS. Link: <https://github.com/markohautala/react-app>
4. **Flask Project** - Website developed using the Flask framework. **Tech used:** Flask, Python, Jinja, HTML, jQuery, CSS, JSON. Link: <https://github.com/markohautala/Flask-project>
5. **Bootstrap Online Resume** - Online resume built with Bootstrap. **Tech Used:** HTML, CSS, API:s, Bootstrap, emailJS, JavaScript. Link: <https://markohautala.github.io/bootstrap-online-resume/>

Work Experience

Fornuddens school - Tyresö, Stockholm

Physical Education (PE) teacher

Aug. 2021 - Present

- **Active Listening and Communication:** I engage in daily communication and collaboration with various school stakeholders, enhancing effective teamwork and understanding of different needs.
- **Stress Management and Time Management:** I handle teaching responsibilities, administrative tasks, and documentation under tight deadlines, demonstrating excellent stress management and time management skills.
- **Decision Making and Problem Solving:** Teamleader over six colleagues, making quick decisions and solving unexpected issues efficiently, showing strong leadership and critical thinking abilities.
- **Organization and Adaptability:** I initiate and manage projects to improve work routines, displaying organizational skills, multitasking ability, and adaptability to new challenges.

Kaffeknappen AB - Stockholm, Sweden

Service & Customer Relations Manager

June 2016 - June 2018

- **High responsibility:** Managed and had full responsibility over exclusive coffee machines for 100 large companies in Södermalm, maintaining high service standards. All customers were very satisfied.
- **Problem-solving and adaptability:** I retained Kaffeknappen's largest corporate client by resolving previous dissatisfaction, earning positive feedback (*see reference*).
- **Time management and self-motivation:** I showed strong independence, responsibility, and efficiency in meeting deadlines.

Certificates/Collaborative Projects

- **AI foundations** - Machine Learning
- **Hackathon** (agile collaboration with six team members) - built a website to calculate investment profitability using NPV.

Additional Information/Interests

- Listening continuously to tech podcasts like "Developers!" and "HTML All the things" to stay updated with the software/IT-industry. I also regularly engage in coding communities like the Slack tech forum.
- Strong interest in different AI-technologies.
- Coding on personal portfolio projects every day.
- High interests in self-improvement, fitness, food and nutrition.
- I both speak, read and write fluently in Swedish, English and Finnish.

References

Kaffeknappen AB

"Regarding Marko, I cannot praise him enough. He provides fantastic service and maintains a very professional attitude with customers. He is an incredibly important ambassador for the company Kaffeknappen. It is rare to see such a young man take on such comprehensive responsibility towards customers.

Best regards,

A very satisfied customer (DN - Dagens Nyheter)."
