PROJECTS

HouseGram

🔗 <https://github.com/markohautala/django-rest-api>

A social media application for sharing dream-houses. Built with Django REST API as backend and React as frontend.

- **Tech used:** Django REST API, React, Postgres, Cloudinary, Heroku, CSS/HTML

Nextjs OpenAI API Chat-app

🔗 <https://github.com/markohautala/nextjs-tailwind-ai-chat/tree/master>

AI/Chat-GPT like app for coders.

- **Tech used:** Next.js, AI, TypeScript, Tailwind, JavaScript, Vercel, API's, OpenAI

Django Auth and CRUD to-do app

🔗 <https://github.com/markohautala/django-auth-crud-app>

To-do App with full CRUD-functionality and user Authentication.

- **Tech used:** Python / Django framework, HTML, CSS, JavaScript, SQL-database, Heroku

React to-do app with Three.js background animation

🔗 <https://github.com/markohautala/react-app>

To-do application built and based on React.

- **Tech used:** React, JavaScript, Vite, Three.js, Heroku, HTML, CSS

EDUCATION

Fullstack Software Development - Degree

Code Institute

📅 06/2023 - 08/2024 📍 (Remote Based Learning)

- Degree in Full Stack Software Development - 30 HP/ECTS
- Fullstack software development with advanced front-end specialization (Accredited by the University West of Scotland)
- Creating accessible user-friendly interfaces and well-documented, clean frontends and backends, all built with modern coding and design principles
- Agile participation and collaborations in Hackathons

Physical education - Bachelor's Degree

Stockholm University & GIH

📅 09/2018 - 06/2021 📍 Stockholm, Sweden

- The Swedish School of Sport and Health Sciences
- Physical education (PE) teacher - 180 HP/ECTS

SUMMARY

I'm a passionate Full Stack Developer specializing in frontend development, with extensive experience in JavaScript, Python, React, Django, Next.js, Node.js, REST-API's and AWS. I'm dedicated to creating user-friendly, accessible interfaces and maintaining clean, well-documented code. With strong analytical skills and attention to detail, I thrive in both independent and team settings. As a team leader for the past three years, I'm eager to bring my expertise to a new, collaborative environment and continue growing as a developer.

SKILLS

React.js	Python	Javascript		
Rest API	Django	AWS	Vercel	
Agile	CSS	HTML	API	Azure
Bootstrap	Git	JQuery	CI/CD	
Django REST		Node.js	Next.js	
Flask	Github	Heroku	Figma	
Jest	JSON	AI/ML	MongoDB	
NoSql	Postgres	Slack	SQL	
MongoDB	Tailwind	Three.js		
Typescript	Animation	Front-end		
Back-end	API Development			
Database management				
UI/UX Design				

EXPERIENCE

Physical Education teacher & team leader

Fornuddens school

📅 08/2021 - Present 📍 Tyresö, Stockholm

- Environment with daily communication and collaboration with various stakeholders, enhancing effective teamwork and understanding of different needs
- Handle administrative and physical tasks under tight deadlines - demonstrating stress and time management skills
- Team leader over six colleagues, making quick decisions and solving unexpected issues efficiently, showing strong leadership and critical thinking abilities
- Manage my own projects to improve work and documentation routines on the workplace for everyone - displaying organizational skills, responsibility, and adaptability to new challenges
- Daily documentation and working in different IT-systems

Service & Customer Relations Manager

Kaffeknappen AB

📅 06/2016 - 06/2018 📍 Stockholm, Sweden

- Managed and had full responsibility over service and customer relationships on over 100 large companies in Stockholm, maintaining high service standards with all customers satisfied - showing excellent service and communication abilities
- Retained Kaffeknappen's largest corporate and client (2nd biggest news company in Sweden) by resolving previous dissatisfaction, earning really positive feedback (see reference)
- Showed strong independence, responsibility, and efficiency in meeting deadlines
- Increased overall sales by 40% in my district on all customers and increased customer satisfaction-rate from 70% to 100% under two years

ADDITIONAL INFORMATION

Additional information / interests

- Listening continuously to tech podcasts like "Developers!" and "HTML All the things" to stay updated with the software/IT-industry. I also regularly engage in coding communities like the Slack tech forum.
- Strong interest in different AI and Machine Learning technologies.
- Coding on personal portfolio projects every day.
- High interests in self-improvement, fitness, food and nutrition.
- Driver's license (B)
- I both speak, read and write fluently in Swedish, English and Finnish.

REFERENCES

Kaffeknappen AB

*"Regarding Marko, I cannot praise him enough. He provides fantastic service and maintains a very professional attitude with customers. He is an incredibly important ambassador for the company Kaffeknappen. It is rare to see such a young man take on such comprehensive responsibility towards customers.
Best regards,
A very satisfied customer (Dagens Nyheter)."*
