Stockholm, Sweden / markohautala@live.se / 072-291-07-50

Executive Summary

My name is Marko, and I am a passionate and enthusiastic Full Stack Developer with a love for frontend development. I have experience and strong knowledge in React, Python, JavaScript, Bootstrap, SQL, HTML/CSS, Django, and working with APIs. I also have skills in AI/ML, NodeJS, and Next.js, and I'm familiar with AWS. I strive to create smooth UX/user-friendly interfaces with modern principles and robust, clean backends. My attention to detail, strong analytical abilities, and quick problem-solving skills are among my strengths.

I am looking for chances to use my skills and grow in a supportive team. I am always eager to learn and get better. With over 9 years of experience working well with teams and communicating effectively, I have great references that show my excellent service, strong results, and positive impact on colleagues.

Work Experience

Fornuddens school - Tyresö, Stockholm   Physical Education (PE) teacher   Aug. 2021 - Present

- **Active Listening and Communication:** I engage in daily communication and collaboration with various school stakeholders, enhancing effective teamwork and understanding of different needs.
- **Stress Management and Time Management:** I handle teaching responsibilities, administrative tasks, and documentation under tight deadlines, demonstrating excellent stress management and time management skills.
- **Decision Making and Problem Solving:** I lead a team of six colleagues, making quick decisions and solving unexpected issues efficiently, showing strong leadership and critical thinking abilities.
- **Organization and Adaptability:** I initiate and manage projects to improve work routines, displaying organizational skills, multitasking ability, and adaptability to new challenges.

Kaffeknappen AB - Stockholm, Sweden   Service & Customer Relations Manager   June 2016 - June 2018

- **High responsibility:** Managed exclusive coffee machines for large companies in Södermalm, maintaining high service standards.
- **Problem-solving and adaptability:** I retained Kaffeknappen's largest corporate client by resolving dissatisfaction, earning positive feedback *(see reference)*.
- **Time management and self-motivation:** I showed strong independence, responsibility, and efficiency in meeting deadlines.

Certificates/Collaborative Projects

- **AWS Certified Cloud Practitioner**
- **AI foundations** - Machine Learning
- **Hackathon** (agile collaboration) - built a website to calculate investment profitability using NPV.
  Tech used: HTML, CSS, Django, Vercel.
  Materialize:https://eu.badgr.com/public/assertions/ZRUiU4Q2R52vnIjw8SbO5w?identity__email=markohautala@live.se

Additional Information/Interests

- Listening continuously to tech podcasts like "Kodsnack", "Developers!" and "HTML All the things" to stay updated with the software/IT industry.
- Strong interest and a daily usage of different AI-technologies.
- Regular engagement in coding communities and on Slack tech forum.
- Coding on personal portfolio projects every day.
- High interests in self-improvement, fitness, food and nutrition.
- I both speak, read and write fluently in Swedish, English and Finnish.

References

Kaffeknappen AB

"Regarding Marko, I cannot praise him enough. He provides fantastic service and maintains a very professional attitude with customers. He is an incredibly important ambassador for the company Kaffeknappen. It is rare to see such a young man take on such comprehensive responsibility towards customers.
Best regards,
A very satisfied customer (DN - Dagens Nyheter)."
